Keith Snyder

Partner

Internal Audit and Advisory Services Group Leader

Keith Snyder is a Partner at David Landau & Associates, LLC and heads the Internal Audit and Advisory Services practices. Keith Snyder brings over 25 years of internal audit and technology-related experience, primarily in the real estate, professional services and financial services industries. Keith's consulting experience includes process improvement and optimization of accounting and operational business functions, operational due diligence, internal control optimization, and analysis and design of financial and management reporting. At DLA, Keith assists clients through both SOX compliance and management consulting services, as well as performs hands-on documentation and testing of SOX IT controls and manages DLA staff on SOX engagements.

Keith's professional focus is in SOX, control design and implementation, internal audit, technology optimization, IT controls and governance, process and organization optimization and project management. Keith has extensive experience in design control environments and analyzing business needs to assess ERP system application functionality leading to the selection and implementation of a complete financial package. He is also experienced in streamlining procedures, increasing efficiencies and improving customer satisfaction by modifying processes, implementing EDI and increasing inventory control. Keith has hands-on experience with Lawson, SalesLogix, Sage CRM, ACCPAC Advantage, Elite, MS SQL Server, Business Objects, and Crystal Reports technologies.
