

Elevating your Risk Management Capabilities

At DLA, LLC, we provide comprehensive risk management and advisory services tailored specifically for the insurance industry. Our team of insurance risk professionals brings advanced expertise in areas like internal audit, regulatory compliance, cybersecurity, data analytics, and enterprise risk management, among others, to help you right-size your risk management activities. Our disciplined approach brings together people, process, and technology to deliver industry insights and practical recommendations that help optimize your risk management strategies, streamline internal processes, and enhance the value you bring to stakeholders.

We empower our clients through...

- Outsourced and co-sourced internal audits
- Model Audit Rule and SOX compliance and controls evaluations
- IT audit and compliance, with a focus on cybersecurity
- Enterprise risk management and ORSA program assessments
- MGA/TPA and other 3rd party compliance and operational reviews
- Data analytics and continuous auditing
- IPO readiness
- Internal control framework design and implementation to support financial, operational, and compliance requirements
- Regulatory compliance, including anti-money laundering program assessments
- IA independent external quality assessments
- Functional/program assessments and transformation support
- Internal audits or other GRC software vendor assessments and implementation support
- Fraud risk assessments
- Board level training
- Corporate governance and ESG assessments
- Staff augmentation
- Insurance accounting advisory support
- Forensic, valuation, and litigation support
