

Embracing Cybersecurity Realities: Safeguarding Your Crown Jewels from Inevitable Threats

Our Cybersecurity services include:

- IT Security Policies and Procedure development
- Cybersecurity training and awareness
- Social Engineering and Email Phishing exercises
- Data Leakage Protection (DLP) reviews and solutions
- Third-party/vendor risk assessments and TPRM as a Service
- Vulnerability Assessment and Penetration Testing with Breach and Attack Simulations
- SEC Cybersecurity 2023 rules for public companies' assessment and board training
- Cybersecurity Risk Scoring – Assess and quantify potential threats to prioritize responses
- Governance, Risk, and Compliance (GRC) Solution Assessments and Implementation
- Virtual Chief Information Security Officer (vCISO) and Virtual Chief Technology Officer (vCTO) Advisory outsourcing
- 24/7 Monitoring & Detection with XDR – Utilize Extended Detection and Response for continuous vigilance
- General Data Protection Regulation (GDPR), California Consumer Privacy Act (CCPA) and New York SHIELD Act assessments
- Cybersecurity regulatory and compliance assessments
 - ▶ SO 27001, NIST 800-53 (R5), NIST CSF, FFIEC, NYDFS and HIPAA
- Cybersecurity Resilience
 - ▶ Business impact analysis (BIA)
 - ▶ Business continuity plan (BCP)
 - ▶ Incident response plan (IRP)
 - ▶ Incident Responses, Ransomware triage and Tabletop exercises
 - ▶ Disaster recovery plan (DRP)

Every company is susceptible to a cyberattack. It's not a matter of if, but when.

Our clients come to us because:

We take a multi-faceted approach to cybersecurity that aligns with their compliance obligations by:

- Finding ways to reduce their Cyber risks
- Assessing their organization's commitments to cybersecurity
- Adopting a risk-based approach with mitigation plans
- Looking for ways to automate their day-to-day repetitive tasks
- Improving their overall resilience to better respond to incidents
- Continuously evaluating and challenging our clients' moving security requirements

We are obsessed with ensuring our clients obtain the highest value.
